

ABSTRACT OF THE DISCLOSURE

An electronic apparatus to which a plurality of  
batteries are detachably mounted, has a removal requirement  
5 receipt section for receiving a removal requirement for a  
part of the mounted batteries, a processing ability  
determination section responsive to the removal requirement  
for a battery from said removal requirement receipt section  
for determining whether a supplying possible electric power  
10 from the remaining batteries is an electric power capable  
of maintaining a processing ability or an electric power  
which needs to lower the processing ability, and a  
processing ability control section for lowering the  
processing ability in accordance with a decision from said  
15 processing ability determination section that the electric  
power needs to lower the processing ability.
